# Cabinetry Creations, Inc.

By Michelle L. Lloyd

**Brendan O'Mahony**

Time has proven that Cabinetry Creations, Inc. is one of the most respected cabinetry providers in the entire Orlando area. That's historically due to their ability to combine innovation with timeless creativity, and to do it at very competitive prices. But based on their showroom and their staff, they have separated themselves from the pack by changing the status quo for the process of designing cabinetry.

Their fully functional showroom is unlike any other in Orlando. They purchased an older 1925 house near downtown. They converted the historical landmark into a unique and inviting showroom that feels more like a home than an office. The original natural oak flooring and

casework throughout the building add a warm contrast with the cabinet displays and other interior features. Upon entering, people notice the 1,000-bottle wine cellar. It was manufactured from natural mahogany and features a Sub-Zero wine cooler with two refrigerator drawers. It also includes a dramatic arrangement for both individual bottle and case storage, as well as a place for wine glasses and accessories. The mahogany blends nicely with the Chicago Brick background.

The fully functioning kitchen display features Adelphi Beaded-Inset cabinetry. The cream paint finish is highlighted with a brushed glaze, and medium brown accents at the hood. A custom hand-painted etched-stone backsplash beautifully contrasts the Wolfe range. The Golden Raspberry granite tops are stunning, and were provided by Mystic Granite and Marble. It also features a stainless steel Sub-Zero refrigerator with a matching pull-out spice tower. The bar at the sink wall seats three, and serves as a comfortable

**"This is the second kitchen that Brendan has designed and installed for me. The first kitchen was in a 1917 Frame Vernacular home and posed many challenges. It was a knockout. The most recent kitchen was once again a complete redo in a 1925 Spanish Mission home. With much ingenuity, Brendan was able to turn a barely functional kitchen into a kitchen that's perfect for entertaining. My kitchen is a great example of how attention to detail and utilization of space can reap big rewards." — Maria Shreve, homeowner.**

**T**his is the second kitchen renovation that Brendan has totally gutted and designed for me. He worked with me to choose the appliances and the backsplash. Everything was measured to a perfect fit. I would recommend Cabinetry Creations to anyone that wants complete satisfaction in their remodeling project.

— Paula Loftus, homeowner

As you can see, this drawing is a 3-dimensional drawing of the kitchen above.

viewing place for a large plasma television, provided by Absolute Sound. The TV is fully Internet capable and also displays their presentation drawings. There's a story behind the software they use to create their drawings. Out of frustration over the inadequacies of currently available cabinetry software programs, they developed their own. Quite literally, no one else has drawings like theirs.

The main office features Adelphi Frameless cabinetry in natural cherry. It was designed to have a contemporary look. The cabinetry is cleverly contrasted by the color of the walls and bookshelves. The style and arrangement of the lighting fixtures also play a part in authenticating the contemporary style of the room.

**“Brendan O’Mahony’s expertise in kitchen design goes beyond mere design — as a cook himself he knows how a kitchen should function for each client’s needs. His designs are client-driven.” — Jeffrey L. Smith, Smith Earnest Interiors.**

The conference room features Kitchen Craft cabinetry in cherry wood. It has a medium-dark finish with a dark glaze for the traditional aristocratic look associated with a home office or library. Featuring bookshelves and Corinthian columns down to a custom Wenge wood countertop, they also have some very impressive client-related memorabilia on display. After recently completing a project for a well-known sports figure, he autographed a picture for them as a token of appreciation for a job well done. In addition to that, there are many word-of-mouth testimonials available. Not just from their elite clients, but from people who live in houses similar to their showroom.

There are two Habersham displays in their showroom. Due to Habersham’s uniqueness, it’s difficult to even describe their furniture pieces. The first is the island display. Habersham has many predetermined sizes and shapes for their custom islands. However, being a distributor, Cabinetry Creations, Inc. can show their clients every possibility available. The second is the display in the powder room. More and more clients want to impress their houseguests. Habersham is definitely the way to go to achieve that. Your bathroom will be the talk of the neighborhood.

In addition to the cabinet lines they carry, they also have master craftsmen who can build and finish custom pieces in their own

manufacturing facility. Whatever their client’s budget may be, Cabinetry Creations has consistently provided cabinetry packages of exceptional quality to meet their client’s needs.

The owner and founder, Brendan O’Mahony, heads their staff. Brendan was born and raised in Ireland, and is proud of his Irish heritage. With a degree in civil engineering and a background in drafting, he came to the United States in 1985 to pursue opportunities not available in Ireland. He began his career as an in-house designer for a kitchen manufacturer in Daytona Beach, FL. He continued to gain invaluable knowledge and experience for the next 18 years before establishing Cabinetry Creations, Inc. in 2003. His knowledge isn’t limited to cabinetry. He’s well-versed in all aspects of the building trade, and has exceptional project management skills. Combine that with his light-hearted demeanor, and it’s easy to understand why the overwhelming majority of his clients enjoy doing business with him.

Brendan handpicked his support staff from the best of the best he had encountered over time. Each person on his staff wears more than one hat — because they can. Their commitment to excellence is surpassed only by his confidence in their skills and abilities. They really are an extraordinary team.

**“Brendan practices good business ethics by being straightforward and very honest, and with his positive and dynamic personality, he works with clients to create and design cabinetry that sets him apart.” — Ross Jordan, Ross Jordan Contractor, Inc.**

Whether you’re building a new home or remodeling an existing home, Cabinetry Creations provides the products, service and functional design to meet any cabinetry needs. With the benefits of modern technology, competitive pricing and the ambiance of a unique showroom, Brendan takes great pride in his achievements and looks forward to the future of his company. “We love what we do, and it shows,” Brendan said. “We have a reputation for helping clients achieve the perfect balance between their cabinetry design wish list and their actual cabinetry budget for the project, as well as providing excellent service and superior design function. We believe these qualities are a great combination for future success.”

Brendan is quite proud of his showroom, and he invites you to come in for a tour.
